TOLEDO CLUB BANKRUPT

TOLEDO, April 4.—Thomas J. Hickey, president of the American Association, today investigated the baseball situation here.

Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, April 4.—The movement in prices of the stock exchange during the greater part of today's session was extremely uncertain, but the entire list rose spiritedly in the final hour, in response to a sweeping demand for rails, especially investment shares.

Southern Pacific was the dominant feature, its advance of 4 1/2 points being attended by free accumulation of numerous large individual blocks.

Much of the early irregularity of market leaders were traceable to the steel dispute with Director General Hines, sudden abandonment of the Mercantile Marine deal with the United States government, and further contradictory news from the peace conference.

Steels, motors and their specialties and sugars, chemical and express stocks, shared most extensively with the later movement in rails, strength prevailing at the active finish. Sales amounted to 800,000 shares.

Foreign bonds were easier, but domestic issues, including the Liberty group, reflected the better tones for high class rails. Total sales, par value, aggregated \$14,800,000. Old United States bonds were unchanged on call.

NEW YORK, April 4.—Dun's tomorrow will say:

With full recognition of the uncertain state of the highly important iron and steel industry, due to differences over the price question, it is nevertheless clear that business has added something to its recent recovery. The growth of confidence, which is nearly everywhere manifest, seems greater than the expansion of actual operations, but activity broadens with each week's passage and is supported by substantial contributions to the list of helpful factors. New opportunities for the extension of American enterprise abroad are not infrequently making their appearance. With many domestic concerns that had been completely or largely engaged on government work now turning to other channels of production, and with prices of some commodities at a less inflated position, the whole economic situation steadily assumes a more normal aspect and the benefits are beginning to show in a business development.

Weekly bank clearings, \$6,313,565.889.

WOOL MARKET REVIEW

BOSTON, April 4.—The Commercial Bulletin tomorrow will say:

"Interest has been keen in the opening sales at London this week. Prices there have been strong, showing the need of spot wools for immediate consumption. The demand has been keenest for the finer wools. The market here has been without any features making for the opening of the first April series. Foreign primary markets are steady.

"The manufacturing situation is still irregular and more or less unsettled. Although some mills have sold very well, little has been done in the west except upon consignment."

Sorted basis: Texas, fine 12 months \$1.38@1.42; fine 8 months, \$1.25@1.40.

Territory: Fine staple, \$1.55@1.60; half blood combing, \$1.45@1.50; 3/4 blood combing, \$1.05@1.10; fine clothing, \$1.40@1.42; fine medium clothing \$1.35@1.38.

Pulled: Extra, \$1.55@1.60; AA, \$1.50@1.55; A supers, \$1.40@1.45; Mohair, best combing, 65@70c; Mohair, best carding, 60@65c.

COTTON MARKET

NEW YORK, April 4.—Cotton closed steady, net 15 points lower to 30 points higher on the new style months. Old style deliveries closed 60 points higher to 15 points lower.

METAL MARKET

NEW YORK, April 4.—Lead steady; spot and May \$5.20@5.35; spelter, unchanged. Copper quiet; electrolytic, 15 1/4@15 1/2c.

GRAIN MARKET

CHICAGO, April 4.—Corn took an upward swing in value today as a result of bearish traders having overreached themselves. July and September jumped to the top most prices yet this season. The close was unsettled.

13 1/2 to 6c net higher with May \$1.57 to \$1.58, and July \$1.49 to \$1.50.

Oats gained 1 1/2 to 1 1/4. In provisions, the finish was unchanged to 40c higher.

At first the corn market had a decided down slant, owing more or less to competition from Argentina and to the removal of the Argentine minimum export price. Besides, the action of the exchange directors in ordering a statement of all trades in May corn exceeding 25,000 bushels continued to handicap the bulls during the forenoon. After midday, however, offerings became scarce.

Oats were governed by the action of corn. Trade early was slow, but later became brisk.

Provisions after ranging lower with grain ascended quickly when the bulge took place in corn. Selling on the close was not aggressive.

CHARLES CHYNOWETH, Secretary. Dated, Calumet, Mich., March 10, 1919. Adv.

TRADE PREFERENCE IS NATION LEAGUE CLUB

PARIS, April 4.—Pity the nations that don't hop into the league of nations band-wagon. The latest little proposition non-member states have to face is the insistence of labor for an arrangement which will bar from international commerce products turned out by nations not subscribing to the international labor organization being built up. And as that's a part of the league of nations, it means: "Be a member or be ostracized." It looks as though it is going to be a "world league" all right!
